# DAY 1

## 8<sup>th</sup> of March

08:30	EAAM Registration		
09:00	Official Symposium opening		
09:30	Ignacio Gimenez from the IUCN	Keynote Speaker	
10:15	Lessons learned from Antillean manatees reintroduction project in Guadeloupe, French Lesser Antilles by N. Rozniewska	Conservation	CHAIR Guillermo SANCHEZ CONTRERAS
	Satellite tracking of rehabilitated grey seal pups ( <i>Halichoerus grypus</i> ) in the Baltic sea: determination of survival and adaptation by L. Lupeikaite		
10:45	Coffee Break		
11:15	In-situ actions of Marineland Côte d'Azur with cetaceans in difficulties: a recap of 2022 by I. Brasseur	Conservation	CHAIR Javier ALMUNIA
	Attending cetaceans in need by Aquarium Mar del Plata by A. Faiella		
	The stranding of seven killer whales and how Mar del Plata Aquarium participated in the event by A. Saubidet		
	Operation Beluga – August 2022 by I. Brasseur	Humane care	
	Significant improvements in population welfare in four marine mammal species in zoological settings by M. Böye		
	The French debate on cetaceans in human care (Season 8 coming soon) – What we learned so far! by M. Böye		
	Utilizing social media effectively to support conservation and education efforts by H. McBride		
13:00	A message from ANIMAL NECESSITY		SPONSOR
13:15	Lunch		
14:30	Jo Ruxton A plastic ocean initiative. (Outreach and Awareness)	Keynote Speaker	
15:15	Up to new ventures Cetacean research at Zoo Duisburg by K. Ternes	Conservation	CHAIR Ana RUBIO-GARCIA
	Short and inspiring talks by S. Salido, Y. Debosschere and P. Moron-Elorza	Training and Veterinary care	
	Lead intoxication in bottlenose dolphins ( <i>Tursiops truncatus</i> ), an update. Part 1: tissue concentrations by G. Sanchez-Contreras		
	Short and inspiring talks by D. Ebmer		
16:30	Coffee Break		
17:00	Conservation Consortium L. Von Fersen ----- Marine Mammal Presentations A. Gonzalez	ROUND TABLES	
19:30	Free Dinner		

# DAY 2

## 9<sup>th</sup> of March

8:30	EAAM Registration			
9:00	Andreas Fahlman Global Diving	Keynote speaker		
9:45	Short and inspiring talks by F. Jakobsen, B. Ecalle and A. Ames	Acoustics	CHAIR Andreas FAHLMAN	
	<i>Studying acoustic communication in manatees (<i>Trichechus manatus manatus</i>) under human care and potential applications for the conservation of wild populations</i> by A. Charles			
	<i>Cheap and effective : a new biotag to identify dolphin callers within a group</i> by A. Gallo			
	<i>Acoustic behaviour in bottlenose dolphins during two different target discrimination tasks</i> by A. Hernandez-Sanchez			
10:45	A message from IDV INGENEERING		SPONSOR	
11:00	Coffee Break			
11:30	<i>The "Baby Sd": a powerful training tool for calves and moms</i> by N. Issenjou	Training and veterinary care	CHAIR Manuel GARCIA-HARTMANN	
	<i>Ten years of using the trained "copy" Sd to test the imitative capacities of Killer Whales (<i>Orcinus orca</i>) at Marineland Antibes France.</i> by O. Charles			
	<i>The other side of the disease</i> by A. Rincon			
	<i>Two clinical cases of gastroenteritis in captive polar bears (<i>Ursus maritimus</i>)</i> by A. Quiev			
	Short and inspiring talks by J.L. Bernabeu, D. Peula-Navarrete, C. Rubio-Guerri and U. Romani-Cremaschi			
	<i>Towards understanding host-pathogen dynamics of Cetacean Poxvirus: attainable approach through the application of a repetitive non-invasive skin sampling in bottlenose dolphins (<i>Tursiops truncatus</i>) under human care</i> by S. Segura-Göthlin			
13:15	Lunch			
14:30	<i>Human faces discrimination in bottlenose dolphins (<i>Tursiops truncatus</i>)</i> by F. Corrias	Training	CHAIR Isabelle BRASSEUR	
	<i>Extinction burst: Young beluga vomiting from blowhole</i> by N. Cortezon-Collazo			
	<i>Voluntary for stomach washing and aspiration with bottlenose dolphins (<i>Tursiops truncatus</i>) at Zoomarine Rome</i> by O. Henriques			
	<i>Northern Seas: an ecosystem of coexistence</i> by L. Leopardi	Conservation veterinary medicine		
	<i>Causes of cetacean mortality in Northern France from 1995 to 2020</i> by A. Quiev			
	<i>Cetaceans by-catch impact on the coast of Valencian Community.</i> by J.L. Crespo-Picazo			
	<i>Incidence of <i>Brucella ceti</i> on Belgian and North French coast between 1995 and 2020 in stranded harbor porpoises (<i>Phocoena phocoena</i>)</i> by T. Gregoire			
16:30	Coffee Break			
17:00	Live strandings M. Garcia-Hartmann and M. Böye	ROUND TABLES		
	Gating Training J.L. Arenarez			
18:30	Annual General Meeting			
20:00	Free Dinner			

# DAY 3

## 10<sup>th</sup> of March

8:30	EAAM Registration		
9:00	Alejandro Grajal - CEO Seattle Zoo <b>Future of Zoos and Aquaria</b>		Keynote speaker
9:45	How to define an animal welfare strategy and its relevance for all marine mammal facilities. The Oceanogràfic model by D. Garcia-Parraga	Animal welfare	<b>CHAIR</b> Fabienne DELFOUR
	Dolphin-Welfare Evaluation Tool (WET): Current Status and Future Digital Development by K. Baumgartner and M. Zürl		
	Cognitive foraging enrichment (but not non-cognitive enrichment) improved several longer-term welfare indicators in bottlenose dolphins by I. Clegg		
	Evaluation of 7 years of enrichment in bottlenose dolphins ( <i>Tursiops truncatus</i> ) by F. Corrias		
10:40	A message from SEAFOODIA		
10:50	Coffee Break		
11:20	Ocular health in bottlenose dolphins ( <i>Tursiops truncatus</i> ) under human care by S. Dreyer	Veterinary care	<b>CO-CHAIRS</b> Daniel GARCIA-PARRAGA and Carlos ROJO
	A bottlenose dolphin ( <i>Tursiops truncatus</i> ) with a multimetastatic corneal melanoma by G. Sanchez-Contreras		
	Lead intoxication in bottlenose dolphins ( <i>Tursiops truncatus</i> ), an update. Part 2: from pellets to urine. Estimation of absorption and excretion. by E. Eusebio		
	Gut microbiome of stranded harbour seals ( <i>Phoca vitulina</i> ) admitted for rehabilitation. by A. Rubio Garcia		
	Problems experienced in taking impressions of tusks for protective crowns, the failure of zirconium and success of CoCr crowns in the walrus ( <i>Odobenus rosmarus</i> ) by Y. Debosschere		
	Congenital disorders in harbour ( <i>Phoca vitulina</i> ) and grey seals ( <i>Halichoerus grypus</i> ) admitted into rehabilitation from the Dutch Wadden sea by S. Feher		
	Highly malignant mammary gland carcinoma in a female patagonian sea lion ( <i>Otaria flavescens</i> ) by T. Alvaro-Alvarez		
13:00	Official Symposium Closure and Press Conference		
13:30	Lunch		
15:00	OCEANOGRÀFIC Visit		
18:30			
21:00	Gala Dinner		

“Marine mammals in need,  
Let people know we are part of the solution !”
